San Francisco, CA

SKILLS

Ruby	HTML	ActiveRecord	Javascript	JQuery	Ruby on Rails
Git	SQL	CoffeeScript	RSpec	CSS	Jasmine

EXPERIENCE

Dev Bootcamp - Student (June 2013 - August 2013)

Learned how to program web applications over the course of 900 hours in 9 weeks through an emphasis on pair programming and group projects

PROJECTS:

Pilgrim

A global news aggregator that fetches articles from international sources tailored to users' interests. Each article is translatable into a variety of languages so users can immerse themselves in a foreign language in a medium with which they are familiar.

WTFShouldIDoThisWeekend

A suggestion engine that helps users find weekend activities based on results from sources like Rotten Tomatoes, Groupon, and Songkick.

Sonic Overflow

A site where users can ask music related questions, and receive answers from other users in the style of Stack Overflow.

Dev Bootcamp - Teacher's Assistant (August 2013)

Helped newer students learn to program as a TA for 3 weeks post-graduation

Georgia-Pacific LLC - Sourcing Analyst (May 2012 - May 2013)

Led a bi-weekly meeting for all sourcing analysts covering financial fundamentals
Lead analyst on a $72MM national sourcing project with a potential $11MM in savings

EDUCATION

Dev Bootcamp

9 week intensive web development training using Ruby on Rails

University of Missouri - BS Business Administration (Finance & Banking Emphasis)

Graduated May 2012 Cum Laude; GPA: 3.39
